

# Instructions

1. Find the region, county, district or single-tier city you live in. (For example, if you live in a city or town that is within a region, county, or district, look for the name of that region, county or district.)
2. Click on the non-Catholic school board, not the Catholic school board, to register your children there. If your children are already in a Catholic board, consider registering them instead in the non-Catholic board.
